How to Access Lions Supportive Housing

Application for Supportive Housing placement is done through the WRHA Home Care Case Coordinator. If you do not have a Home Care Case Coordinator, you may request one by phoning the Community Service Intake Line at 204-788-8330. The Home Care Case Worker will then work with you to complete your assessment application, and assess your eligibility for Lions Supportive Housing.

Supportive Housing is intended for seniors who can no longer live independently in the community with available supports.

Supportive Housing living prolongs the needs for Personal Care Home placement until a more intensive level of care is needed.

Supportive Housing is a reliable choice if you are requiring some assistance managing health conditions such as dementia, or have difficulties with everyday living due to physical limitations.

Supportive Housing is for seniors wanting freedom and privacy in suites, combined with innovative support and care options.

Supportive Housing companions provide 24-hour support while providing residents with personal supervision within a safe and secure environment, and providing family with peace of mind knowing their loved one is safe.

Staff works with seniors and family to ensure that supports are put into place in order to meet the care needs of each individual.

Lions Supportive Housing consists of 48 suites over 4 units, which is part of a larger complex, and a continuum of care.

The program offers a variety of daily leisure activities, which focus on individual needs and preferences, including scheduled outings.

All the units have a common lounge/activity area that promotes socialization.

Congregated dining areas have full kitchens; all meals are prepared onsite three times daily and are served on the units for the Resident's dining pleasures.

Residents taking medication will receive reminders as needed throughout the day.

In house staff provides weekly light housekeeping and daily laundry services.
